

Labfax Product Datasheet

Product Code:	INK1623
Description:	White Calandared Poly Cotton Taffeta, Suitable for printing with Epson C3500 Label Printer
Physical Characteristics:	
Warp:	53 yarn/cm
Weft:	37 yard/cm
Total Weight:	225 g/m ²
Total Thickness:	255 micron
Adhesive:	COPES – Low friction permanent co-polyester heat seal
Supply:	Can be supplied in any width from 30mm, MOQ's based on full deckle width of 1450mm
Colour:	White
Washing Properties:	Domestic 60°C, dry cleanable
Printers:	Epson C3500
Applications:	For printing of garment and wash care labels
Storage:	18-23°C, 50-55% RH, avoid exposure to UV and heat sources.
Conditions:	Allow print to dry sufficiently to obtain maximum wash ability. It is advised to do preliminary printing trials, to evaluate the water resistance and to test the compatibility with pigment inks. For optimal lasting quality prints made with dye-based inks, frequent and/or long-lasting exposure to high humidity levels (e.g. above 75% RH) should be avoided if possible.
Shelf Life:	1 year in original packaging
